

EYE DROP RECALL ALERT

Several eye drops and ointments exclusively sold at **Walmart and Walgreens** stores have been recalled because they may not be sterile, the Food and Drug Administration said. "Administration of a nonsterile product intended to be sterile may result in serious and potentially life-threatening infections or death," the recall says.

One of the recalled products

Altaire Pharmaceuticals, Inc. issued voluntary recalls for various Equate products, including treatments for allergy relief, solutions, eye drops and gel drops, all of which are manufactured and labeled for **Walmart**.

For **Walgreens**, Altaire has recalled several over-the-counter and prescription eye drops and ophthalmic ointments, including moisturizing eye drops, sodium chloride ophthalmic ointment, and lubricant eye ointment.
